CHARLES R. BUCKALEW.

A Useful and Honorable Career Closed.

Death Followed a Brief Illness.

Our honored townsman, Charles R. Buckalew, is no more. His death occurred at his home on Fifth street last Friday morning, about eight o'clock, after a brief illness. On Monday night he was found unconscious, and though he afterwards recovered consciousness, he was not rational, his disease being pronounced to be congestion of the brain. Though his recovery was scarcely expected, his death was not looked for when it did occur, and was a shock to his family.

Mr. Buckalew's age was 77 years, 4 months and 21 days. He was born in Fishingcreek township, Columbia county, Dec. 28, 1821. He was married to Permelia Wadsworth, daughter of Rev. E. Wadsworth, a clergyman of the M. E. Church, at Town Hill, Luz. Co., Feb. 14, 1849. Mrs. Buckalew suryives him. They moved to Bloomsburg soon after their marriage, and have always resided here, except when Mr. Buckalew's public duties called him away home. Two children were born to them, Warren J., a member of the Bar of this county, who died some years ago, and Alice M., wife of L. E. Waller, Esq. Capt. J. M. Buckalew, of Fishingcreek township, a brother of the deceased, survives him.

The funeral was held on Monday afternoon at two o'clock, at the house, the services being conducted by Rev. Dr. Conner, of the M. E. Church, and consisting of the beautiful ritual of that church. There was neither singing nor funeral discourse. Many beautiful floral offerings rested on and near the casket. The pallbearers were Col. J. G. Freeze, A. Z. Schoch, J. M. Clark, James Scarlet, Samuel Wigfall and N. U. Funk. The carriages were in charge of Frank Ikeler and W. H. Slate.

The burial took place in Rosemont Cemetery, and just as the town clock tolled the hour of three, the mortal remains of an honored citizen, a distinguished statesman, and an honest man, were lowered forever from the sight of those who had known and revered him in life.

MR. BUCKALEW'S CAREER.

Charles R. Buckalew was born in Fishing Creek Township, Columbia County, Pa., December 28, 1821.

After receiving an academic education he studied law with M. E. Jackson, Esq., of Berwick, Pa., and was admitted to the bar at that place at the August term, 1843.

He was appointed Prosecuting Attorney of Columbia county in April, 1845, and resigned in 1847.

In 1850 he was elected to the State Senate for the district composed of the counties of Luzerne, Columbia, and Montour. He was re-elected in 1853.

In 1854 he was appointed special commissioner to exchange the ratifications of a treaty with Paraguay and made a journey to South America by way of England. In 1856 he was chosen a Senatorial Presidential elector for Pennsylvania.

In 1857 he was chairman of the Democratic State Committee, and in the same year was re-elected to the State Senate for the district composed of the counties of Columbia, Montour, Northumberland and Snyder.

In the following winter he was nominated by the Governor and confirmed by the Senate to be one of the commissioners to revise the criminal code of the State.

This post and office of Senator he resigned in the summer of 1858 and was appointed Minister Resident of the United States at Quito, in the Republic of Ecuador, where he remained three years.

On January 14, 1863, he was elected to the United States Senate for six years from the 4th of March following.

During his term in the Senate of the United States Mr. Buckalew, in addition to his ordinary Legislative duties, on the first of March, 1864, submitted to the Senate a "minority report on the repeal of the fugitive slave acts," Mr. Sumner submitting the report of the majority.

On February 20, 1865, he submitted an elaborate report on the subject of lighting, heating and ventilating the halls of Congress.

On February 21, 1866, he delivered his celebrated speech on "Representation in Congress." On January 15, 1867, he addressed the Senate "On the Executive Power to Make Removals from Office;" on July 11, on "Reconstruction," and on the same day on "Cumulative Voting."

On January 29, 1868, he spoke on the subject of "Reconstruction;" on March 26 on "The McRadle Case" and on the "Jurisdiction of the Supreme Court."

On March 3, 1869, he submitted a "Report on Representative Reform," and on the close of the proceedings an "Opinion on the Impeachment of Andrew Johnson."

In 1869 he was re-elected a State Senator for the district composed of the counties of Northumberland, Montour, Columbia and Sullivan.

In 1872 he was the nominee of the Democratic party for the office of Governor of the state, but was not elected.

At the same election Colonel Freeze was chosen a member of the convention to reform the constitution of the state, and upon the defeat of Mr. Buckalew for Governor, Colonel Freeze promptly tendered to Mr. Buckalew the seat to which the former had been chosen in the convention. Accordingly, on the third day of the sitting of the convention Colonel Freeze offered his resignation to that body, and on the next day, November 15, Mr. Buckalew was selected to fill the vacancy and served during the sittings.

In the same Fall of 1872, Mr. Buckalew published a work on "Proportional Representation," which was edited by Colonel Freeze.

In March 1876, at the Democratic Convention at Lancaster, Mr. Buckalew was by acclamation nominated to head the Democratic electoral ticket of the state at the ensuing Presidential election.

In November 1876, he was elected representative in Congress from the district composed of the counties of Columbia, Montour, Carbon, Monroe and Pike, and parts of the counties of Lackawanna and Luzerne.

In 1877 he contributed an article on "Proportional Representation" to Johnson's Cyclopaedia, and in 1883 gave to the public an elaborate work on the constitution of Pennsylvania.

In 1886 he was elected president of the Bloomsburg and Sullivan Railroad Company, and in 1888 was again elected to Congress, serving two terms. In 1894 he was once more a candidate for Congress, but was defeated.

He has been a director of the First National Bank for a number of years, up to the time of his death.

For some years past he has lived a retired life, and has not practiced his profession actively for ten years or more.

Mr. Buckalew was a pleasant companion at all times, because of his genial disposition, although to many he appeared cold and distant, but to those who knew him more intimately he was a conversationalist of rare gift. His fund of knowledge was varied and extensive. His acquaintance with botany enabled him to talk most entertainingly on that subject, and this was but one of the many subjects with which he was familiar, outside the lines of his professional education. He was a public speaker of great force; not one who amused his audience by anecdote and buffoonery, but who convinced them by his logic and by the ponderous force of his arguments, sometimes, indeed, seeming to be dry and uninteresting, but only because the closeness of his reasoning was beyond the grasp of the ordinary listener.

In court he was always the courteous gentleman to both the court and opposing counsel. He never engaged in repartee, and never lost his temper in trying a case. He belonged to a school of old time lawyers whose likes we seldom look upon in these modern days. To those whose privilege it was to know him well, he will be kept in pleasant remembrance for many long years to come.

MEETING OF THE BAR.

Pursuant to the call of the President, a meeting of the members of the Bar of Columbia county was held in the Court room on Monday afternoon, May 22d, at one o'clock, to take action upon the death of Hon. C. R. Buckalew. The meeting was called to order by Col. John G. Freeze, President of the Bar Association. Besides a large number of the local attorneys there were present from out of town the following gentlemen: Hon. Stanley Woodward, President Judge of Luzerne County, Ex-Attorney General Henry W. Palmer, Alexander Farnham, Esq., of Wilkes-Barre; Henry Watson, Esq., of Williamsport; James Scarlet, W. Kase West, Judge H. M. Hinckley and W. J. Baldy, Esqs., of Danville; C. B. Jackson, and C. C. Evans Esqs., of Berwick.

After stating the object of the meeting the chairman called upon Judge Woodward for some remarks, to which he responded by paying a high tribute to the character and ability of the deceased, whom he had known for many years. General Palmer also addressed the meeting on invitation of the chair, and spoke feelingly and appropriately of Mr. Buckalew's services and of his worth as a man.

The chairman then appointed C. B. Jackson, C. W. Miller and Geo. E. Elwell a committee on resolutions, and on motion of Mr. Miller, Col. Freeze was added to the committee. The following report was then made by the committee, and was unanimously adopted:

Resolved, That in the death of Charles R. Buckalew the State of Pennsylvania, and the nation as well, have lost a public spirited citizen, who in many ways distinguished himself in the public service, and after having devoted thereto many years, retired from public life to his home, with a character of spotless integrity, and unsullied renown.

That his services to his party and to the public welfare in the Senate of the United States during a most trying period of our history, and also to his native State in the Constitutional Convention of 1874, and in many other public positions, have justly given to him a reputation as a statesman and a lawyer, second to none of the distinguished men who were his contemporaries, or of the leading men of a former generation, and the moving principle of whose whole life and work was the public good.

That as a member of the Bar of Columbia County for more than fifty years, he proved himself to possess a thorough knowledge of the law; and was not only the oldest in years and professional life, but also entitled to rank with the ablest men of the profession, who have preceded him in practice in the courts of the county.

That wo hereby extend to the surviving members of his family our condolences and our sincere sympathy upon their bereavement.

That a copy of the foregoing resolutions be presented to the Court at its next sitting, and by permission of the Court, filed among the records and spread upon the minutes.

That a copy of these resolutions be prepared and transmitted to the family of the deceased.

That the Bar of Columbia County attend the funeral services in a body.

JOHN G. FREEZE,
C. B. JACKSON,
GEO. E. ELWELL,
C. W. MILLER.

The meeting then adjourned, and the members of the Bar proceeded in a body to attend the funeral.

GEO. E. ELWELL, Sec'y.

Among those from out of town who attended Mr. Buckalew's funeral were Ex-Judge I. K. Krickbaum, Rohr McHenry, John G. and J. B. McHenry, G. W. Knouse, of Benton; Daniel McHenry, of Stillwater; C. C. Evans, Esq., of Berwick; Headly Sult, of Briarcreek; J. P. Hill, A. Cole, of Jamison City; Hon. W. T. Creasy, of Catawissa; W. M. Monroe and L. H. Boody, of Rupert; Capt. H. J. Conner, Albert Achenbach, Frank Ricketts, of Orangeville; Hon. R. K. Polk, of Danville, Dr. Low, of Lime Ridge; Col. R. B. Ricketts, Col. E. B. Beaumont, Col. G. Murray Reynolds, of Wilkes-Barre, and many others.

Resolutions of Condolence.

At a special meeting of the Board of Directors of the First National Bank held Friday May 19, the following resolutions were adopted:

WHEREAS it has pleased the Creator and Father of us all to remove from our midst our esteemed friend and coworker, Hon. C. R. Buckalew, whose death we greatly deplore: Therefore be it

Resolved, That in his death this institution loses a valuable officer and member of its Board of Directors, the community a wise and worthy citizen, the home a dear husband and kind father.

Resolved, That we hereby extend to the bereaved family and friends our sincere sympathy in their sad affliction.

Resolved, Further that a copy of these resolutions be sent to the family and to the press for publication.

A Trout Dinner.

The ladies of the M. E. church at Jamison City gave a trout dinner in the hall at that place last Friday. There was a large attendance of people, and those who partook of the meal got their full money's worth, the price being only 25 cents. Among those from Bloomsburg were candidates Henrie, Terwilliger and Mensch and Messrs. Fritz, C. H. Campbell, and Geo. E. Elwell. Capt. H. J. Conner of Orangeville, also was there. The ladies of that church know how to cook, and it is unnecessary to say that everything was prepared in a delicious manner.

Methodist Episcopal Church.

Sunday school at 9:00 a. m. Rev. Charles Roads D. D., General Secretary Pennsylvania State Sabbath School Association will preach at 10:30 a. m., subject: "Jesus the perfect Teacher." Junior League 2:30, Epworth League 6:30. Rev. D. E. Vishanoff of Thessalonica, Macedonia will tell the interesting story of his life and the needs of his people at 7:30. The public cordially invited to all the services. Strangers especially welcome.

The Leader Department Store.

Will End Sale of Carpets

The Carpet Mills of the Country take a month, Spring and Fall to get out their lines of samples. In doing this short lengths of carpets are made ranging from the sample size "42" long to what is colled a short piece 60-80 yds. long. We have bought all the Samples and odd lengths of the Carpet Works and put them on sale at bargain prices. You can't get such qualities for so little money anywhere else as we offer. Prices from 3c. up.

Furniture Department

We have a number of Bed-Room Suits, made by Bloomsburg workmen. We want to make room for Fall Goods and so offer 3 piece suits for $12.00 while they last. In our higher priced suits we have made reductions which give them to you for cost, in some instances below cost. We want them to go.

Dry Goods

We don't claim to carry the largest stock in Bloomsburg, but we do claim the freshest. We go to market frequently, buy the latest and choicest of the seasonable fabrics, and you reap the benefit. Special attention is called to our showing in Dimities, Organdies, Pks, Ducks, Homespun Silk Finished Mull, India Linen and other seasonable goods. For Fancy Waists, we show a select line of Japanese and China Silks. Patterns, private to us

Linens.

We are headquarters for Fine Linens. We have been so for years, and we take a special pride in our stock. Every housekeeper knows how mind-easing fine table linen is when friends are at the board. Ask for our best, but don't expect to be shown a piece for $1.25. We will ask your opinion on our taste on a piece for $2.25. Of course, we have them, all prices, down to 25c, but in every grade we show good value for the money.

Grocery Department.

You can readily guess how satisfactory our goods must be to our patrons when we tell you that the business has just doubled, as compared with 1898. Business cannot be built up, unless by giving satisfactory goods. That's our plan, and it works well—good goods at lowest market rates. Trash we do not keep. May we serve you.

CHILDREN OF OLD MEN.

Seventy Years No Bar to the Acquisition of Interesting Families.

Cases of children being born to men verging on the three score years and ten, which are declared by the Psalmist to constitute the span of human life, are by no means so rare as might be imagined, says the New York World.

The present earl of Leicester, one of the only peers of the realm who witnessed Queen Victoria's coronation, was 71 years of age at the time of the birth of his youngest daughter, whose eldest sister, aged 49, is already a grandmother. The famous French Field Marshal Pelissier, duke of Malakoff, was 68 when he married, and his only daughter, recently divorced from the Polish Count Zambiska, was born a year later. His fellow field marshals, Canrobert and Bazaine, likewise married when they were in the neighborhood of 70, and each left several children.

The father of Queen Isabella of Spain, old King Ferdinand, was 68 at the time of her birth, and 69 when her sister, the late Duchess de Montpensier, made her appearance in the world. Ancient history furnishes many more such instances, among the most notable being, perhaps, those of Cato, King David, and last, but not least, Father Abraham.

CHARACTER IN HATS.

Amateur Divinations by Very Strange Means Now the Fad in Chicago.

Character reading is the very latest fashionable diversion of social Chicago. Not professional character reading, but amateur divination by society people themselves. The old style palmistry is now supplemented by character reading by means of a study of a person's handwriting, of his facial lines and expressions, of his walk, of even the clothes he wears, says the Chicago Chronicle.

"I can tell more about a woman's personality by examining her shoes and hat than by watching her face," remarked a clever man the other day. "I always look first at her shoes, then at her skirt and finally at her hat. The waist or coat I never remark at all. Sometimes I am mistaken in the shoes, because the pair may be new and stiff and have not had a chance to become part of the individual.

"But the hat is never debatable territory. Its shape, its trimming, its size and the way it is placed on the head all tell something of the owner's personality. A hat is to me the typical straw that denotes the outlines of the wearer's character."

GOLF AND SCOTCH WHISKY.

The Growing Favor of the Game Over Here Increases the Sales of the Liquor.

"The game of golf is responsible for an increase of almost 200 per cent. in the sale of Scotch whisky in this country," said a liquor dealer. "Scotch whisky is as essential to a golf player as beer to a man at a clam bake, and the growing interest in golf is increasing the sale of this commodity every year.

"In Scotland, where the game of golf is said to have first been played, the standard drink is Scotch whisky. Of course, the American golfers have to follow the Scotch fashions, and Scotch whisky and soda—a really delicious and refreshing beverage—is the favorite drink in the golf clubs in this country.

"In a liquor trade paper, I saw, some time ago, some figures on this subject. Before the game of golf became so popular in this country, the annual sale of Scotch whisky here was less than 30,000 gallons. It is now said to be something like 90,000 gallons a year. There is a well-grounded suspicion that a good deal of this whisky is distilled right in this country and put into bottles bearing the labels of a Scotch firm, but I think it would be impossible to prove this."

FRENCHMEN DON'T TRAVEL.

Because They Have an Innate Horror of Anything Like "Roughing It."

M. Bonvalto, the distinguished explorer, is constantly exhorting his fellow-countrymen to travel, and his appeals are once more leading to a review of the reasons which render the average Gaul so averse to adventure beyond his own frontier, says the London Telegraph. How does it happen, it is asked, that so few, even of the younger generation of Frenchmen, display any inclination to see the world, although at their age, many Anglo-Saxons have already been round it?

Two main explanations for these stay-at-home propensities are volunteered. One is that people in France rarely trouble themselves to learn foreign languages, so that they are like fish out of water when they go abroad. Another is that they are absolutely ignorant of the practical side of travel and have little idea of the articles that they require or of the best mode of fitting themselves out for a long journey. In short, they are not handy or enterprising and have a horror of anything in the shape of "roughing it," as the saying goes.

Do Song-Birds Predict Storms?

A writer in the Monthly Weather Review avers that for a considerable time in advance of a great storm song birds cease their music, and that this may be taken as an indication of the storm's approach. For 48 hours before the beginning of a series of severe storms in northern Illinois last summer not a sound was heard from the throats of the thousands of birds which inhabit that part of the country, and whose music, in fair weather, is one of the charms of the district.

ADDS PI TO HIS LUNCH.

The Tardy Suburbanite's Mortifying Struggle with the Restless Paper Parcel.

The man in the suburbs had his lunch neatly tied in a square paper parcel which did not look its function. He started from the house in orderly precision, says the Chicago Chronicle, but had barely turned the corner when he stubbed his toe and dropped the unsuspicious bundle to the sidewalk, splitting the yellow paper and depositing sandwiches and cake on the ground. Then the train whistle sounded its warning note, and in despair the tortured suburbanite crammed cake and bread promiscuously into his pockets and started on a run for the station. He caught the last platform of the last car and hurriedly sank into a seat. When the conductor asked for his ticket he managed to extract the small pasteboard without showing the contents of one pocket, but tugging deep into the other for his handkerchief to wipe his heated brow, out flew crumby bread and stringy ham and cake that looked as if the frosting had been nibbled by mice. The passengers smiled. They could not have been human and done otherwise. But the man made no allowances for uncontrollable risibilities. He glared at the offending men and women, savagely thrust back the bread and battered cake into his pocket and enveloped his burning countenance in the cooling pages of the morning paper. But there was a look of flint in his eye that spoke the finish of the home-concocted luncheon.

THE SWEEPER TEAM.

A Picturesque Spectacle That Is Still to Be Seen on City Horse Car Lines.

The sweeper team, always the pride of the car stable, is disappearing rapidly now before the power sweeper of the electric and cable roads; but when, on occasion, it does appear on the few remaining horse-equipped lines of the city, it is made up in the same fine style as ever. When the sweeper team finally goes for good it will trot away in good form and flying colors, says the New York Sun.

Thus there was seen the other day on a city street car track over which horse cars are still running a sweeper team of eight white horses in perfectly matched pairs and all good-sized, the wheel pair big horses and the other pairs tapering uniformly to the leaders, but not running down very much, just enough to give the big team form and style. The hames of every set of harness were painted red, not a glaring red nor a muddy dark red—it was more pinkish and transparent—and this narrow band of bright color running around the black collar of each white horse looked neither gaudy nor out of place; it gave the outfit just the proper touch of jauntiness.

The horses were all good steppers and they moved with a proper pride; the big team was of course well driven. It was not perhaps the greatest team ever was, but it was something uncommon slick.

SIGNAL SERVICE.

As Operated by the Captain and His Bride When They Were Separated.

The captain had not been long married when he was ordered into camp. The long-expected call had come at last. To be sure, the camp was in plain sight of the captain's residence, which was some mitigation of the hardship, but then it was still a separation, and to lighten their terrible condition it was arranged that the bereaved husband and wife should signal to each other often with handkerchiefs, says the Cincinnati Enquirer.

It was on the second day that the young wife was seated on the porch reading.

"Tell me, Jane," she said, "is Arthur still signaling?"

"Yes, ma'am," answered the maid.

"Then keep waving your handkerchief. I want to finish this novel!"

At the same moment, in camp, an officer from an adjoining company stepped up to the captain.

"I say, old man," he asked, "why do you keep that man out there all day waving a handkerchief?"

"Oh, it's merely a bit of signal code practice for him," he answered. "Say, I've got some good stuff inside."

The Length of Human Life.

According to M. I. Holl Schooling, of Brussels, says Cosmos, there is an old rule for finding the length of a man's life if the present age lies between 12 and 86 years. This is the rule: Subtract the present age from 86 and divide the remainder by 2; the result will give the number of years you have yet to live. This old rule was discovered by the mathematician De Moivre, who emigrated to England from France in 1865 and became a member of the Royal society. The curves given by Mr. Schooling are interesting to examine. A first diagram shows the chance that every man has of living one year longer than his present age. At birth this chance is 5 to 1; at 5 years, 119 to 1; at 10, 512 to 1; at 15, 347; at 20, 307; at 25, 156; at 30, 120; at 35, 97; at 40, 78, etc. Mr. Schooling affirms from his calculations that of 1,000 individuals of 60 years, 599 will live to be 70, 120 to 80 years and 17 to 90; while of 1,000 nonagenarians, 4 will reach their hundredth year. We may add that for men of 65, the average expectation of life is 10 1-3 years.

THE ODDEST JOB YET.

Hiring a Woman to Personate a Collection Agent in Need of a Beating.

"I used to work for a collection agency in one of the northern cities," said a lady perfumery drummer to a New Orleans Times-Democrat reporter, "and my experience was tolerably exciting. My duty was to sit at a roll-top desk in the office and impersonate the proprietor. Light work, did you say? Just you wait. All day long men would come in red-eyed to lick the boss. 'Where's the fellow that sends out these blackmailing letters?' was the usual salutation. Then I would smile sweetly and say: 'I'm the proprietress; what can I do for you?' At that the visitor would look dazed, mutter things under his breath and walk off. Occasionally the real proprietor would peep through an inside window to see whether I was still alive, for I must admit our letters were calculated to give a man the homicidal mania.

"Well, things went on all right for nearly a month. Then one day a little wiry chap walked in carrying a thick cane. 'Where's the boss?' he said. I gave the usual fairy story. 'Don't believe a word of it,' he replied, 'still I can't beat a woman.' He thought awhile, and something in his eye made me feel creepy. 'I'll have to take it out of the fixtures,' he said, finally, and, upon my word, he broke up every blessed thing in the shop. He did it quickly and systematically, and you never saw such an awful ruin! I yelled murder, but it did no good, and he went right ahead. As a wind-up he smashed the chandelier and bade me a polite good-day. When the proprietor came in he had a fit. It was after that I went into the perfumery business. The work is harder, but it is much less trying on one's nerves."

We Amuse the Foreigner.

From Plymouth to Calais there is a chain of decayed seaports and idle shipyards—a chain of rotten wharves, tumble-down piers, shipless harbors and old sailors, says H. Phelps Whitmarsh, in Atlantic. All speak eloquently of a great carrying trade, of a great foreign shipping interest, of a great marine power—that was. The foreigner, when he looks at all this for the first time, and realizes what has been lost, stands aghast, and finds himself wondering whether the high estimate set upon the American people as an energetic business nation is not, after all, an unmerited one.

BARRELS OF SAMPLES.

Over Two Hundred Thousand Sample Bottles Sent Free by Mail.

By special arrangement with the manufacturers of that justly famous Kidney medicine, Dr. David Kennedy's Favorite Remedy, the readers of the COLUMBIAN are enabled to obtain a trial bottle and pamphlet of valuable medical advice absolutely free, by simply sending their full name and postoffice address to the DR. DAVID KENNEDY CORPORATION, Rondout, N. Y., and mentioning this paper.

Of course this involves enormous expense to the manufacturers, but they have received so many grateful letters from those who have been benefited and cured of the various diseases of the kidneys, liver, bladder and blood, rheumatism, dyspepsia and chronic constipation, and all weaknesses peculiar to women, that they willingly send trial bottles to all sufferers.

Upon investigation it was found that 91 per cent. of those who had used the trial bottle had received such benefit from it that they purchased large sized bottles of their druggists.

It matters not how sick you are or how many physicians have failed to help you, send for a trial bottle of this great medicine, it costs you but a postal card, and benefit and cure will most certainly be the result.

Put some urine in a glass tumbler and let it stand 24 hours; if it has a sediment or if it is pale or discolored, milky or cloudy, stringy or ropy, your kidndys or bladder are in a bad condition. Dr. David Kennedy's Favorite Remedy speedily cures such dangerous symptons as pain in the back, inability to hold urine, a burning scalding pain in passing it, frequent desire to urinate, especially at night, the staining of linen by your urine and all the unpleasant and dangerous effects on the system produced by the use of whiskey, wine or beer. Dr. David Kennedy's Favorite Remedy is sold at all drug stores at $1.00 for a large bottle; six bottles for $5.00.

Lippincott's Magazine for June, 1899.

The complete novel in the June issue of "Lippincott's" is entitled "Green Withes," by Jeanette H. Walworth. This is a tale of strong human interest, touching, as it does, on one of the vital questions of to-day. The snapping of the green withes of convention and the inevitable awakening are told in a forceful and interesting way, which is calculated to arouse the reader's deepest sympathy.

A truly delightful article on "The Summer's Birds," by Dr. Charles C. Abbott, will be found entertaining, as well as useful in country walks this summer. "Chemistry in the Kitchen," by Albert G. Evans; "The Samoan Feast of Pilaui," by Owen Hall; and "Fires in Metalliferous Mines," by John E. Bennett, are all excellent and timely papers.

Shorter fiction is well represented by Dora Read Goodale in "The Opera Glass," and by Rollo Ogden in "A Scientific Reader."

Theodore Gallagher contributes a story of life in a miner's camp, called "Father McGrath," and Alice Miriam Roundy writes of "King McDougal's Kitten."

The verse of the month is from the pen of Margaret Gilman George, Geraldine Meyrick, and Eliza Calvert Hall.

WASHINGTON.

From our Regular Correspondent.

Washington, May 22, 1899.

If the scheme of the Reed chairmen of the most imporant committees of the last House to keep their places under the new organization of the House is a success, the next Speaker will find that he is merely at the head of the old Reed legislative machine. The argument put forth by these schemers is little short of ridiculous. If accepted, it would mean that every man at the head of an important committee had a right to stay there as long as he could get elected and his party could control the House. Such a plan would be unjust to the Speaker, who would be little more than a figure-head, if he could not control the make-up of the committees, and equally unjust to the members who wish no better their committee positions. The Reed machine says that all the old chairmen who were reelected should be given the same places, and points to fourteen vacant chairmanships, owing to retirement of the old chairmen, as the only ones that the new Speaker should put new men into; also that none of the members of important committees should be displaced. That would give the Speaker fourteen chairmanships, only four of which are important—Accounts, Banking and Currency, Coinage, and Printing—to distribute among his supporters, and 57 vacancies to fill on eighteen of the important committees. It is said that these heldovers intend to form a combine to prevent the election of any candidate who will not agree to their plans.

***

Representative De Vries, who will have the honor of being the only Democrat from California in the next House, is in Washington. He says the Gov. is going to appoint Burns to the Senate, with the understanding that he is to be seated at the same time that Quay gets in, and that the appointment will give the state to the Democrats.

***

General Joe Wheeler returned to Washington this week, but not upon any order from the War Department. He has no immediate expectations of being ordered to the Philippines, because the administration is too busy hoping that the fighting is over to be thinking or ordering officers to go there.

***

Representative Gaines, of Tenn., is in Washington on business. Speaking of the political outlook he said: "The Democrats have only to stand firm, renominate Bryan, make some additions to the Chicago platform, and they will sweep the whole country in 1900. Bryan's renomination is assured, for he is just as much admired in the strongholds of the party as he was in '96. The next platform will declare for free silver, but will also declare against expansion, militarism, and the trusts, which threaten the destruction of the nation. What makes the prospect all the brighter for the Democracy is the torn and divided state of the Republicans. When Congress meets and the majority tries to enact iron-clad gold-standard legislation, it will find out the true sentiment of the country on the financial question."

***

Representative Henderson's candidacy for the Speakership may be hurt more than helped by the work that is being done in his behalf by the old soldier organizations, which are asking votes for him on the ground that he will organize the committees of the House so as to insure more liberal pension legislation. It would seem to an unprejudiced observer that the country has already gone to the extreme limit in the matter of pension liberality, and the election of a Speaker who would favor going further in that direction would be regarded as anything else than a blessing outside of those who would receive the money or be directly benefited by a further increase in the already enormous pension payments annually made by this government.

***

Kentucky Republicans are perfectly willing to have the gold Democrats vote with them to carry that state, but they are not willing to have the gold Democrats rewarded with Federal offices, and they have, through Senator Debee, filed a vigorous protest with the administration against Senator Lindsay, of Ky, being allowed to name six out of the thirteen Census Supervisors the state is entitled to. Mr. McKinley has lost no opportunity in showing his gratitude to the men without whose votes he would have been defeated, and the chances are that the original idea will be carried out, regardless of the protest.

***

The alacrity with three of the big-headed young office holders—Assistant Secretary Vanderlip, of the Treasury; Assistant Secretary Allen, of the Navy Department; and Assistant Postmaster General Perry Heath—appointed themselves a National Committee to receive contribution that are being made all over the country to buy a home in Washington for Admiral Dewey was a little bit astonishing even to the old-timers who are accustomed to the freshness of the office-holders of the Ass. brand. However, as their seltmade credentials seem to have been accepted by the country the matter is only mentioned to show how easy it is for a man of gall to push himself along after he gets a little start. They were wise enough to elect Mr. Roberts, Treasurer of the U. S., Treasurer of the Committee. Present indications are that much more than the price of the most expensive residence in Washington will be contributed.

FLAMES DESTROY DAWSON CITY.

111 Buildings Go up in Smoke.—A Loss of $4,000,000.

The main portion of the city of Dawson was destroyed by fire on April 26, causing the loss of $4,000,000. In all, 111 buildings including the Bank of British North America, were burned.

News was brought down by L. S. Hume, son of ex-Mayor Hume, of Seattle, S. Toklas and another person, who left Dawson on April 27, and made their way out by a canoe to Lake Lebarge, and then over the ice, having a perilous trip. Toklas reports that the fire occurred April 26 in the very heart of the business centre of the city, commencing near the opera house on the water front and spreading with unusual rapidity.

It was driven by a strong north wind, destroying everything in its way on that street down to, and including Donahue & Smith's establishment. The fire then took in all of the water front buildings abreast of the same block, in other words the fire crossed the street, burned through and spread over to Second street, covering the principal business portion of Dawson, leaving it all in ashes.

With the firemen helpless and powerless to do anything, the fire consumed everything from the Timmins Royal Cafe down to and opposite Fairview Hotel. Every building burned like tinder due to the fact that they had been standing for nearly two years, and the logs were dry as powder. The fire spread with such rapidity that the citizens appeared panic-stricken and unable to save anything in the way of furniture and clothing, so that the losses when footed up, promise to be even greater than at first estimated.

Among the most prominent firms burned out were the Royal Cafe, Donahue & Smith, McLellan & McSeely, Parsons Produce Company, Aurora Saloon, Bodega Saloon, Madden House, Hotel Victoria, McDonald's Block, Bank of British North America and a score of smaller firms and business houses.

The fire came at a time when the mills and dealers in building material had exhausted their winter supplies and were waiting for the opening of navigation to replentish their stocks. The result is a famine in all kinds of building material and furniture, such as sashes, doors, locks, hinges, etc. A few articles still remaining outside of the burned district have quadrupled in prices. Doors are selling for $35 each, door locks $5 each and everything in proportion.

The town is paralyzed because nothing can be done until the opening of navagation, which will not be for several weeks. The first boat going down with building material will reap a harvest.

As has been the case with all fires in Dawson, this one was caused by a drunken woman upsetting a lamp. None of the big warehouses of the Alaska Commercial Company, nor the North American Trading and Transportation Company were touched by the fire, so there will be no shortage of provisions even if the lakes should not open for navigation before the middle of June, which is not predicted.

The heaviest losers by fire are Messrs. McLellan & McSeely, who had an immense stock of iron and tinware and miners' supplies taken in at heavy expense, and the Bank of British America, whose rather flimsy vault did not withstand the heat, papers in it being destroyed. The bank also lost a large amount of gold dust.

QUESTIONS TO BE ANSWERED.

When the Twelfth Census will be Taken.

Just what the population of the United States, territories and possessions is, will not be known until along the latter part of next year, when the census will have been computed. It may not be known accurately even then.

The taking of the twelfth census will be a stupendous undertaking, as many men in the proposed standing army, say 40,000, will be required merely to enumerate the people, and the additions of other help will almost, if not fully, double that figure.

With Hawaii, Porto Rico and the Philippines to be traversed by the head counting officers, the expense of conducting the census of 1900 will be double that of the last census in 1890.

Under the director of the census there are to be 300 supervisors, and one enumerator for every 4,000 inhabitants, estimated.

The supervisors are apportioned among the states and territories, each controlling a district and directing the enumerators under him. The enumerators are allowed a maximum of $6 a day, which with 40,000 of them, will mean an expenditure of $240,000 a day for thirty days or about $7,000,000 for a month of hard counting and gathering information about all sorts of things.

In the main office at Washington there are to be an assistant director, at $4,000; fire chief statisticians at $3,000 each; one chief clerk, at $2,500; one stenographer, at $2,500; forty five clerks, averaging $1,200 each, an indefinite number of clerks at $720 each; a captain of the watch, at $340; two messengers at $600 each; a distributing clerk, at $1,000; and a number of helpers, classed as skilled and unskilled laborers, the first at $400 and the latter at $240 each.

The schedules for 1900 are under five heads; the individual, corporations, agricultural, mortality and special. The questions to put to individuals are: Your age, conjugal relation, place of birth, parents' birth-place alien or naturalized, number of years in the United States, occupation, months employed, literacy, school attendance and ownership of property. Every person over twenty years is considered a responsible representative to answer for each and every member of the family. The above questions are the ones you will be compelled to answer. If any further questions are put to you, you may safely ignore them. If you are out, your neighbor next door must answer for you, as he is supposed to know all about you. Refusal to answer or any falsification of facts is a misdemeanor for which the guilty one will be fined $100; an alternative punishment, however, providing for the possibility of the deliquent not happening to have the ready money, is not mentioned.

The schedule under "individuals" is rather modest, while inquiries pertaining to manufacturing establishments are pretentious. Here are the questions: Name and character of organization; whether individual or co-operative, or other form; character of business and kind of goods manufactured; amount of capital invested; firm members, co-partners, or officers; amounts of their salaries; number of employes; amount of wages; quantity and cost of materitl used in manufacture; amount of miscellaneous expenses; quantity and value of products; character and quantity of power used; character and number of machines employed. The president, treasurer and secretary, agent or any direct officer of any corporation, business, factory, or firm is answerable for all. And any refusal to answer, or any false statement, is an offence for which the culprit must pay a $10,000 fine or go to prison for one year, or both.

The questions relating to Agriculture include: Name or occupant of each farm; venture, acreage value of farm and farm implements; average quantity and value different product; number and value of live stock.

Statistics will also be gathered relating to special classes, including: The insane; the feeble minded; crime; deaf dumb and blind; pauperism, juvenile delinquents, and inmates of reformatories and benevolent institutions; and last of all, in the cities, social statistics relating to public indebtedness, valution, taxation and expenditures; to religious bodies, to electric light and power, to the telephone and telegraph business; and to transportation—including steamboats, express facilities, and street railways.

FILLED WITH GRATITUDE.—"I feel grateful for what Hood's Sarsaparilla has done for me. I suffered a severe attack of rheumatism and was troubled with night sweats. Medicines prescribed did not give relief, but Hood's Sarsaparilla has cured me. I reccomend it for these troubles." W. Henry Ziest, 2216 Colorado St., Philadelphia, Pa.

Hood's Pills cure all liver ills. Easy to take, easy to operate; reliable, sure. 25c.

Caring for Callas in Summer Time.

Keeping calla lillies during the summer troubles many lovers of this beautiful window plant. Here are two ways which are usually successful: Take the plants from the pots, cut off the tops to within two inches of the soil and place the roots where they will get no sun and rain, re-potting as with other plants in the fall. Or, take the plants from the pots without cutting off the tops, and set them in the open ground. This treatment will check their growth and most of the leaves will wilt and fall off, but new ones will start later and the plants will be in good shape to take up and pot in September, ready for another season of bloom in the window.—From "June Floral Notes," in *Demorest's Magazine* for June.

What the New Law Requires.

The new mercantile tax bill requires the dealer to place permanently at the entrance of his place of business a sign describing the business in which he is engaged, under penalty of ten dollars for every violation.

The whole volume of business, including cash receipts and merchandise sold on credit, shall be the basis on which the license is to be rated.

If the owners, proprietor or any other person connected with a business refuses to produce the books and papers and appear before the county treasurer to give information on which to base his tax, he is made liable to a penalty of $1000.

The committee on laws of the Grand Lodge of the Knights of Malta reccommended to that body, at the meeting in Scranton recently, the purchase of the historic site of Fort Agusta at Sunbury for the indigent members. Fort Augusta was a frontier fort on the bank of the Susquehanna, opposite the junction of the north and west branches.

Employees of the Lehigh Zinc and Iron Company at Bethlehem have received a ten per cent increase of wages, dating from May 1. Five hundred men will be affected by the raise.

From Mrs. Sunter to Mrs. Pinkham.

[LETTER TO MRS. PINKHAM NO. 76,244]

"One year ago last June three doctors gave me up to die, and as I had at different times used your Vegetable Compound with good results, I had too much faith in it to die until I had tried it again. I was apparently an invalid, was confined to my bed for ten weeks. (I believe my trouble was ulceration of womb).

"After taking four bottles of the Compound and using some of the Liver Pills and Sanative Wash, at the end of two months I had greatly improved and weighed 155 pounds, when I never before weighed over 138. Lydia E. Pinkham's Vegetable Compound is the best medicine I ever used, and I recommend it to all my friends."—MRS. ANNA EVA GUNTER, HIGGINSVILLE, Mo.

Mrs. Barnhart Enjoys Life Once More.

"DEAR MRS. PINKHAM—I had been sick ever since my marriage, seven years ago; have given birth to four children, and had two miscarriages. I had falling of womb, leucorrhœa, pains in back and legs; dyspepsia and a nervous trembling of the stomach. Now I have none of these troubles and can enjoy my life. Your medicine has worked wonders for me."—MRS. S. BARNHART, NEW CASTLE, PA.

A CARD.

To the Democratic Voters of Columbia County:

I am a candidate for the Democratic nomination for the office of District Attorney of this county. Mr. John G. Harman is my opponent, and he is now asking for a second term, claiming that the office of District Attorney is a two-term office Mr. Harman opposed Mr. Hanley (his predecessor in office) having a second term, claiming that the office of District Attorney was not a recognized two term office, and that he (Harman) only desired the office for one term. The following is a copy of the statement contained on the 1896 campaign card of Mr. Harman:

"The District Attorney's office is not a recognized two-term office. For over a quarter of a century but two men have held it two terms."

I deem the foregoing proper information for the Democratic voters of Columbia county, and respectfully solicit their support.

C. A. SMALL.

Catawissa, Pa., May 6, 1899. tf.

Democratic Primary Election Notice.

The Democratic Primary Election of Columbia county will be held on Saturday, June 10th, 1899. The poles will be open at the regular voting place in each election district, between the hours of 3 and 7 o'clock p. m. Official tickets will be placed in charge of the officers of each election board, from whom they can be procured by Democratic voters.

Candidates for the following named offices are to be voted for at this election:

Five persons for State Delegates.
One person for County Treasurer.
One person for Prothonotary.
One person for Register & Recorder.
One person for District Attorney.
Two persons for Commissioners.
Two persons for County Auditors.

Each district will also elect a Committeeman and Primary Election Board, to consist of one judge and two inspectors. The County Convention will be held in the Bloomsburg Opera House on Tuesday, June 13th, at 11 o'clock a. m. JOHN G. MCHENRY, R. G. F. KSHINKA, Secy. Chairman.

It surely must tickle Tom Reed, every time he thinks about the trouble he has caused the republicans by retiring.

The United States cruiser Olympia, with Admiral Dewey on board has arrived at Hong Kong on its way home. His health is very much impaired. He will remain there ten days while the vessel is being repaired.

The power of Governor Stone to overrule the will of the people by his unwarranted and unauthorized action in appointing M. S. Quay United States Senator, in vetoing the several resolutions of the Legislature providing for submission to a vote of the people of proposed amendments to the constitution, and in cutting $1,000,000 from the public school appropriation, is to be tested in the courts. There are very strong grounds for believing that the Governor's action cannot be legally sustained.

THE PRIMARY ELECTION.

On Saturday, June 10th, the Democratic primary elections will be held. It will be the first time that the new rules have been tested. They were adopted in 1897, and last year there was but one office to fill, and only two candidates, so that the one having the largest vote was duly nominated. Under the new rules the persons receiving the highest vote for each office will be declared to be the nominee for the several offices respectively.

For Register and Recorder four persons are announced in this paper, and we are informed that four others have also registered with the County Chairman, making eight candidates whose names will appear on the ticket. The one receiving the largest vote will be the nominee of the party, and the other seven, though their aggregate vote may greatly exceed that of the successful aspirant, will be defeated.

For County Treasurer there are five candidates, and the same rule will apply.

For Commissioner there are seven candidates; and for Auditor three. Two will be nominated for each office.

For Prothonotary and District Attorney there are but two candidates for each, so that there can be no complication there, and for state delegates there are but five aspirants and all will be elected.

For these offices all the candidates are professed Democrats, and are running under the rules of the party. Each man takes his chance, as every man must do in politics, and all should be willing to abide by the result. Don't let us have any kickers or bolters after the nominations are made.

Another matter that is worthy of consideration is the custom that has prevailed for many years of selecting the County Treasurer from the south side of the river every third term. This year it belongs there, if this custom is to prevail. There are four candidates from that section, and one from this side. The people have the power to overrule this custom, but whether it is wise to do so at this time, and thus cause dissatisfaction and dissension among a large number of Democrats, is a matter that is worthy of consideration. The same remark applies also to the office of Commissioner. It has been customary to name one Commissioner from the south side. Three years ago this was not done. The south side Democrats claim that they were not treated fairly, and a repetition of the same thing this yea. would be liable to create dissatisfaction and weaken our vote this fall.

Another custom that has prevailed for many years is to accord to the Prothonotary a second term. Unless there is some good reason for a change, and if there is, it has not come to our knowledge, Mr. Henrie is entitled to a re-nomination. He has been an efficient and obliging officer, and ought to be given a second term.

All these matters are worthy of careful consideration by the voters, and they should act as they believe the best interests of the party demand.

A REPLY TO A LYING CIRCULAR.

Prothonotary W. H. Henrie Stamps as Malicious and False a Circular Issued by C. M. Terwilliger.

To the Democratic Voters of Columbia County:

In answer to a malicious and false circular sent out by my opponent, C. M. Terwilliger, I want to say to the voters of Columbia County that the whole circular is a tissue of lies from beginning to end. As to my loyalty to the Democratic party last year, I need only say that I traveled in various portions of the county in support of the Democratic candidates, and especially in support of the present Judge Little (he himself having gone with me to Catawissa and Centralia) and no man in the county knows or can testify to the falsity of this charge better than Judge Little, John G. McHenry, County Chairman, and Congressman R. K. Polk, to all of whom the voters can write and ascertain the truth of this matter and expose the lies of Terwilliger. Instead of being for a Republican as alleged in Terwilliger's circular, I used every influence within my power to the loyal support and election of the whole Democratic ticket from Governor down to County Surveyor.

As to the charge that three years ago I promised Mr. Terwilliger to appoint him deputy at a salary of $1000.00 a year if he should withdraw as a candidate; I never made any such promise to either him or his friends. I did say to him that if elected I would take his application for clerkship into consideration with all the others, and if I could see my way clear to appoint him, would appoint him,. But among the applicants I found one of superior ability and fitness for the place, and being under no obligations or promise to turn every one else down for Terwilliger, I appointed the present deputy, and after three years service I am satisfied that I did the right thing. The present deputy was a member of the bar and acquainted with the proceedure of the office. Terwilliger on the other hand knew nothing about the office and has none of the qualifications to fit him for Deputy Prothonotary and Clerk of the Courts. For the good of the people who patronize the office, I appointed the best man I could find, at a much less salary than Terwilliger demanded, he refusing to serve for a less sum than that above named, which was a larger salary than was ever paid a clerk in any office in the court house. In conclusion I ought to say, that ever since the office of Prothonotary has been established in Columbia county, it has been recognized as a two-term office; the custom never having been broken. During the two years and a half that I have occupied the office, I have endeavored to treat everybody fairly and honestly, and I have never heard any complaints about the manner in which the office has been conducted. I therefore solicit the support of the voters for a second term, the same as every Prothonotary who has gone before me. It will be impossible for me to visit every voter, but I will see as many as I can between this and election day.

Respectfully yours,
W. H. HENRIE,
Prothonotary & Clerk of the Courts.

NOTICE.

Some of my opponents have been diligently circulating the report that I seconded the motion to increase the salary of the Co. Superintendent from $1000 to $1500. I stated through the press last week that the report was false; that I had not made the motion, nor voted for it. Since then these same parties have been circulating the same story, with amendments. Now they say that no one voted against the increase. Scores of people know that this yarn is false. Every man in that convention knows it to be untrue.

During this whole campaign I have treated all my opponents as gentlemen, and all I ask from them is the same treatment. We now ask the public once, and for all, to pay no attention to these false and mischievous reports. J. C. RUTTER, JR.

Some Real Good News

FOR CAREFUL FOLKS.

It has been one of the peculiarities of this store that specially low prices almost always come when the demand for the goods is greatest. Higher prices were never surer to come than now.

We could make a liberal profit on several sorts of goods by storing present stock for the next six months. But this is your store, and summer's supplies of staple things are yours as wanted. Cheaper in many cases this week.

Furniture makers say prices higher from June 1st, or July 1st, and they positively refuse, as a rule, to take orders at present values. Yet we are selling cheaper furniture than has ever been sold in Bloom. Muslins are higher—future promises still further advance—yet muslin burgains rule here. And while muslin underwear makers write "you may expect to pay higher prices," we are selling garments here at the low prices that have made this store popular for these goods.

Cotton Dress Goods.

Bright, new cotton goods, fresh from the mills, are shown to-day, and there is a snap of economy to the prices as well. Lawns and Dimities, 8c the yd. We bought these goods some time ago and we got the choice patterns.

10c the Yd. Lawns

A bright, new lot of this dainty stuff came in last week. Fabric and printing are wonderfully like the Irish goods at double the price.

Colored Pique At 15c the Yd.

An excellent cloth in good colors, of pink, light blue, and scarlet. Plain white pique from 10c to 50c the yd. We can show some values in the goods in all the different widths, netts, and with stripes running up and down and across.

White Pique, with the neat figured effects, are selling well.

Another lot, with white ground, with polka dots of red, blue, pink and black, at 15c the yard, make pretty waists.

Thin, White Dress Goods.

The line of shear, imported India linen, that will wash and iron smooth and silkie, and not get yellow, is the kind that you will find at this store, from 6c to 40c the yard. Persian lawns, from 28c to 65c. French Nainsook, 45 in. wide, 50 cents and 60 cents the yard. Organdies, from 16c to $1.00. The 16c quality would be cheap at 25c.

Bright Ribbons.

A timely bargain is the best bargain of all. This selling of handsome ribbons, just when ribbons are in modest demand, offer much beauty at little cost.

The quality of Morrea, Taffeta, all-silk ribbons, we offer at 25c the yard, will not last long.

Women's Suits.

The staple colors in tailor-made suits seldom need to make clearance sales of them. Nor do we. So it is especial good fortune that we bring to-day a lot of suits that we have sold fast all season at $12.50, we will sell for the next 10 days at $10. The jackets are lined throughout with silk, skirts are lined with fine percaline and bound with S. H. P. M. Binding.

F. P. Pursel.

SPECIAL SALE!

Now is the time to get bargains. During the next 30 days we will give you many goods at and below cost. Wool Dress Goods that was 25c, now 15c. Dress Goods, from 50c. to 30. Do not miss these special sales. We have just received new supply of pretty Coats, Capes and Fur Collarettes for ladies. Fur sets for children.

Ladies' Tailor-Made Suits, from $5.00 up.

Ladies' Coats, Capes, Separate Skirts. Coats for misses and children. In this line our stock is large. Prices low.

Ladies' Fur Collarettes, from $2.00 up.

Our sales in Shoes increases daily. Ladies' Fine Shoes, from 79c. up. Gents' Fine Shoes, from 98c. up. Good Calicoes, 3c. Good Muslin, 3½c. Our stock of Underwear is complete. We handle the celebrated Leather brand Stockings for ladies, misses and boys. Corsets, for 24c. up.

Our Grocery Department is improving daily—adding new goods at better prices. Our whole stock is complete and prices always right. It will pay you to see our goods before you buy.

Stephen Mensinger has again been jailed. It will be remembered that he in company with William Holler, escaped from the jail last August. He was apprehended by Frank Dieterick, near Shumantown.

Rev. Charles Roads, D. D., of Philadelphia, will address the Men's Meeting in the Y. M. C. A. Hall next Sunday afternoon. All men are cordially invited and every one who possibly can should be present to hear this noted Speaker. The Y. M. C. A. choir will sing.

Candidates are all busy rounding out the campaign. Only two more weeks until we'll see who's who. eight candidates for Register and Recorder; if all of them have friends in every township, the vote will be badly split up. There are a few men in town who claim to know all about the situation, who the successful candidates are, what townships they will carry, and so on, but we don't. Politics are too uncertain, we make no forecasts.

The Thirteenth Annual Convention of the Columbia County Sabbath School Association will be held at Orangeville on Thursday and Friday of this week. Preparations have been made by the residents of Orangeville to entertain all delegates. In addition to the County workers, Rev. Charles Roads, D. D., the state secretary and Mrs. J. Woodbridge Barnes, who has no superior in primary work, are to be present.

The peace commission convened at the call of the Czar of Russia for the purpose of considering the disarmament of the strong nations of the world, is now in session at the Hague, Holland. This country is represented by five commissioners. If some mechod of settling difficulties between nations can be agreed upon, the great standing armies and navies can be dispensed with, and thus relieve the people of a heavy burden.

All who attended the Y. M. C. A. Choir concert in the Lutheran church Thursday evening, speak in the highest terms of the entertainment. Every number by the choir was charmingly rendered, especially "The Soldiers Chorus", from the Opera Faust. Another very enjoyable feature of the evening was the recitations by Mr. Charles A. Stuart of Wilkesbarre. All his selections were well chosen, and that he was highly appreciated was evidenced by the liberal applause given him.

First come first served; so march up and pay for the COLUMBIAN a year ahead. This will secure that good little paper, the *Farm Journal*, for the balance of 1899 and all of 1900, 1901, 1902 and 1903, nearly five years, without any further pay. Shall we hear from you within one week?

The Normal School and Bloomsburg Wheelmen have arranged for a series of base ball games to be played in the very near future. The latter have just been organized. We are not able to give the line up, but from reports the club will be composed of the town's best available talent.

We received a postal card from our former townsman C. C. Trench, on Saturday requesting us to change the address of his paper from Leesburg, Florida, to Knoxville, Tennesee. He says the weather down there has been very dry, and that the water melons and cantelopes are a total failure, drying up on the vines.

There has been a change in the schedule of the Pennsylvania Railroad. According to the revised time table which appears elsewhere in this issue, the first train leaves East Bloomsburg for Wilkesbarre at 7:42 a. m. and returns at 12:14. The early train which heretofore left Catawissa at 6:45 a. m. has been dispensed with.

The settlement of the estate of Mary Snyder deceased is approaching an end. After being before an auditor for several years, the contest being over a claim brought against the estate by assignees of Joseph R. Vanderslice, a final argument was heard by Judge Metzger two years ago on exceptions to the auditor's report. Owing to illness and a pressure of other business he has been unable to dispose of the case, and fixed Tuesday for a reargument. This was heard, and a decision is looked for soon by the parties. This case was certified first to Judge Rice by Judge Ikeler, who was a witness in the suit, and upon Judge Rice's going on the Superior Bench it was sent to Judge Metzger.

Scrofulous Hip Disease—"My boy Willie had scrofulous hip disease from a baby. Abscesses developed. Months at the hospital, with best treatment, did no good. They said he would never walk again. He was helpless and wasted away to nothing but skin and bone. Hood's Sarsaparilla had helped me, and I gave it to him. Imagine my delight at a wonderful change. Abscesses all healed, crutches thrown away. He is now tall and stout, perfectly well and the thanks are all due to Hood's Sarsaparilla. Other mothers with crippled children should know this." MRS. EMMA V. DUFF, Walpole, Mass.

WHEN A WOMAN FEELS OLD.

She When Her Growing Grandson First Pays Her Fare on the Cars.

Mrs. Jones and Mrs. Smith met on an Illinois Central suburban train, homeward bound from a morning of shopping. Mrs. Jones is 35 and a mother; Mrs. Smith 65 and a grandmother, says the Chicago Inter Ocean.

"My dear Mrs. Smith," said Mrs. Jones, "how well you are looking. I declare, you are the youngest-looking woman for your age I know. It seems that you have taken off several years every time I meet you. Have you discovered the magic fountain?"

"My dear," replied Mrs. Smith, "you mean well and I'm obliged to you, but I feel an old, old woman to-day."

"Why do you emphasize to-day?"

"Well, it's this way: I started to come down town this morning feeling as gay as a girl of 20. At the station I met my grandson. He's only 13, but he's as big as some men. I suppose the sight of him should have sobered me and made me realize what a landmark I am, but it didn't. And I kept on feeling young and frisky until the conductor came along."

"What on earth did the conductor have to do with it?"

"Why, that boy pulled out his commutation ticket, handed it to the conductor, and said, as a matter of course: 'Two.' Goodness knows I felt old enough when my eldest son paid my fare for the first time, but when a woman gets so aged that her grandson pays her fare she's ancient, sure enough."

BANKS HAVE USE FOR MONEY.

Way in Which Big Financial Institutions Manage to Pay Dividends to Shareholders.

Many people wonder how banks use all the money deposited in them and how they manage to pay interest thereon and yet come out at the end of the year with a big profit on the business, says the New York Telegram.

What they do is trade with the money. To the depositor they pay between one and two per cent., but the money they lend brings them in three, five, six, seven, and even eight per cent.

For instance, they give loans on all sorts of securities, such as railway debentures, government stock, public company shares, dock warrants, bills of lading, etc.

They also lend money on the security of houses and land, but not to a great extent, as repayments are slow.

When a couple of substantial business men or farmers or professional men back a bill the bank often lends without any security at all; but now and again they have heavy and ruinous losses on these loans.

All banks, however, have large sums of money constantly lying idle, for they must keep sufficient cash at the various branches to pay checks, and even to be more or less prepared for panics. Still, the difference between the one or two per cent. they pay and the three or eight they receive on millions of dollars leaves them an immense profit on the year's business.

THE CUBAN GOLD MYTH.

There Is Nothing on the Island Which May Be Dignified by the Name Mine.

If we listen to the voice of the charmer or go to the books on Cuba for our information we shall find that the mineral resources of this island include gold, silver, mercury, lead, antimony, copper, chrome, iron, manganese, pitch, bitumen and even coal; but when we come to look for practical metallic results commensurate with these varied mineral resources we shall be disappointed, says the Engineering Magazine.

The gold fiction is the most time honored, for the original Spanish settlers expected to find rich gold mines in Cuba. According to their historian much gold was taken from this island at the beginning of the conquest, but it seems probable that most of this was taken from the chiefs or caciques of the Indians and very little from the ground. El Viagero Universal, Madrid, 1797, says: "Some of this metal (gold) is still found at Holguin." Whenever the existence of gold in Cuba is discussed this "mine" at Holguin is invariably brought forward. It is true that some work has been done at this point and a little gold has been extracted, but there has never been any systematic exploration, and there is nothing there which may be dignified with the name of a mine.

Sheep-Shearing by Machinery.

The sheep-shearing experiment that is being tried in Sycamore, Ill., is proving successful, says the St. Louis Globe-Democrat. A gasoline engine of four horse-power runs ten clippers, which shear on an average 1,000 sheep a day. One of the advantages of the experiment is that about half a pound more wool is realized from each sheep. The test will be given to 15,000 sheep. The sheep are sheared, the wool tied and packed in large sacks holding several hundred pounds each and ready for shipment at once. The success met with in this experiment will revolutionize the sheep-shearing business.

New York's Police.

The New York police department on March 1 had a total membership of 7,264 officers and men, of whom 91 were in the bicycle squad, 89 in the tenement house squad, 164 were detectives, 83 were in the sanitary corps, and nine were detailed for service in the house of detention. There were also 38 police matrons.

Rush Work on Siberian Railway.

It is expected that the Siberian railway will be completed to Irkutsk in February, 1900.

BLOOD AND TOMATOES.

A Supposed Tragedy That Proved to Be a Perfectly Harmless Affair.

Unusual excitement disturbed the quiet of a Philadelphia residence one recent Sunday evening, resulting in the hurried visits of a policeman and two doctors to the house. Just as the man of the house and his wife reached the front step on the way home from church the door was hurriedly thrown open and out rushed the cook, who called for "help!" When she saw her mistress she declared between sobs that the kitchen range had exploded and that her cousin had been killed. The mistress ran into the kitchen after sending her husband for the doctors and found the place covered with ashes and a young man apparently half-dead lying in a chair in front of the range. His head and face were apparently covered with blood, but it was soon discovered that he was still alive, as he said he was only stunned. The housewife immediately set to work to wash the man's head and face to prepare him for the doctors, but she was moved to merriment when she found that the supposed blood was only tomato juice. In truth the cousin was not injured at all. The explanation was that the cook had placed a can of tomatoes under the grate to melt the sealing on the lid and that the explosion, which scattered the ashes and tomatoes, followed the expansion of the frozen liquid in the can. When the policeman and doctors arrived they were told the story and joined in the laugh, which was on the cook and her cousin.

LUCREZIA BORGIA.

The Prevailing Conception of the Historic Poisoner's Character Is False.

"All her contemporaries agree in describing her as singularly attractive, with a sweet joyousness and charm quite peculiar to herself," says "The History of the Popes," by Dr. Henry Pastor. "'She is of middle height and graceful in form,' writes Uicolo Cagnolo of Parma; 'her face is rather long, the nose well cut, hair golden, eyes of no special color, her mouth rather large, the teeth brilliantly white, her neck is slender and fair, the bust admirably proportioned. She is always gay and smiling.' Other narrators specially praise her long golden hair.

"Unfortunately, we have no trustworthy portrait of this remarkable woman; at the same time we can gather from some medals which were struck at Ferrara during her stay there, a fair notion of her features. The best of these medals, designed apparently by Filippino Lippi, shows how false the prevailing conception of this woman's character, woven out of partisanship and calumny, has been. The little head, with its delicate features, is rather charming than beautiful, the expression is maidenly, almost childish, the abundant hair flows down over the shoulders, the large eyes have a far-off look. The character of the face is soft, irresolute and gentle; there is no trace of strong passions and rather it denotes a weak and passive nature, incapable of self-determination."

A PARISIAN EGG FORGER.

Many of His False Productions Are Purchased for Scientific Collections.

A curious account is given by a Paris correspondent of the discovery of an egg forger, whose false productions are purchased for scientific collections and by amateurs, says the Lincoln Daily News. The man was very clever. A visitor saw him make a penguin egg that could not be distinguished from the real one that served him for a model. He made the shell of plaster of paris burnt and glazed. The egg was intended for a man who furnished eggs for a foreign scientific collection. These imitations are not difficult, for among the real eggs of most species there are so many varieties that even the most practiced expert could not distinguish all of them. The eggs of the common fly-catcher are very cheap. By chemical treatment they acquire a bluish green shining color, and are then sold at a very high price as the eggs of the silk-tail. From common duck eggs are fabricated the eggs of a falcon, for which 50 or 60 francs are paid. The duck eggs for this purpose are given a silver-green color. Pigeon and wood pigeon eggs are also transformed into rarer products of middle-sized birds. Nightingales' eggs are difficult to procure and are therefore very dear. They are imitated by coloring larks' eggs brown. The egg forger was for a long time an assistant in a natural-history museum in the provinces.

Prophetic.

The Paris papers are telling an interesting story of a newly-elected member of the French senate. M. Bassinet, like many of his colleagues, is a self-made man, and began life as a journeyman mason. In that capacity he was employed to renovate the sculptural facade of the Luxembourg palace, when the architect, noting his skill and industry, said to him by way of encouragement: "Why, you couldn't be making a better job of it if it were wour own house." The young workman smiled, and is said to have answered: "One never knows what the future may bring forth." He had at the time no political aspirations, but all the same he now sits as senator in the building he helped to adorn.

A Young Executive.

Earl Beauchamp is one of the youngest men who have in recent years been appointed to a colonial governorship. He is not quite 27 years of age.

Ever Notice It?

The stars on the United States coinage are six-pointed, while the United States flag carries five-pointed stars.

Another New Swindle.

The travelling crayon portrait agents have sprung a new gag upon the innocent and unsuspecting householders in this vicinity, which, in a majority of cases, has worked to perfection. The agent carries with him a box, containing a number of envelopes, which, he says, contains blanks and numbers. The scheme is carried on much in the nature of a lottery. The fakir informs his victims that there are but few numbers in the lot, and requests the person to draw an envelope. Of course, every draw contains a number, and the lucky (?) person is informed that they are entitled to a crayon portrait absolutely free of all charge. The balance of the scheme is identical with former ones. The portrait will not be given unless an extortionate price is paid for a frame. The original pictures are never returned, and the agents leave for pastures new.

The Two-Cent Stamp Issue

During the year 1898 the United States bureau of engraving and printing issued 2,500,000,000 of the common red two-cent stamps, enough to go almost twice around the earth. Stacked one upon another, they would pile up 150 miles beyond the atmosphere, equal in weight to two of our big locomotives and would make a blanket to keep the frost off the city of Washington. If these stamps worked in relays, each taking the letters as far as allowed by the postal regulations, the letter would be carried to the most remote star.

Will Cost $400 a Mile.

It is estimated by an exchange that the bicycle side paths to be erected in the various counties of Pennsylvania will cost $400 a mile, which would mean an annual expenditure of $5,000 to construct twelve and a half miles of a path in a country. The paths are expected to be raised twelve to eighteen inches above the road level. The minimum width must be three feet and the maximum six feet.

A Seedless Orange.

Not content with having produced a hybrid orange that is likely to thrive in a comparatively northern climate, the United States department of agriculture is now engaged in evoluting an orange that shall be seedless, and whose peel will come away as readily as the skin of a banana. This, too, it is said, will be able to withstand considerable degree of frost.

Must Attend Sessions.

The Pennsylvania school law provides that a school director who shall neglect to attend any two regular sessions unless detained by sickness or prevented by absence from the district, the directors present shall have power to declare his seat in the board vacant, and to appoint another in his stead.

Here's a preacher for you! When Dr. Broughton of Atlanta denounced the lynching of Sam Hose he was threatened with injury, and now he has preached another sermon in which he states: "I want to say that I am not afraid of every howling devil in Georgia and in hell. I am master of my pulpit and if you don't like it you may go out. And, furthermore, if I am to be boycotted because I stand up for the majesty of the law in Georgia, let it come."

Here's a chance for some of our bright active boys. Uncle Sam is asking for a number of them between the ages of eighteen and twenty five to enter the revenue marine service as cadets. The cadets receive upon entrance $500 per year and rations, and at the end of two years they are appointed second lieutenants in the revenue marine service. A letter addressed to the civil service commission will give all the necessary information.

Our trainmen, hereabouts, it isn't likely, will ever be called upon to comply with an order like the following which has just been issued by the Baltimore & Ohio Railroad: "All trainmen must keep themselves perfectly clean, and excludes loud neckties, tan shoes, and button hole bouquets, and requires clean collars, carefully brushed clothes and shining black shoes.

It is a strange fact that when a strong, healthy man whose ordinary tone of voice can be heard on the street a half a block distant, gets on the witness stand in court, he grows so weak and debilitated that he can scarcely be heard by the court and jury. At almost every term of court many witnesses have to be asked to speak louder.

It has become quite a fad in some localities to furnish free lunches at vendues. Wherever the new practice is observed large crowds are the result.

Topics of the Day.

The leading article of the June *Demorest's* about "Puff-Balls" is a remarkably interesting account of the not generally known characteristics of this very common fungus. That it has medicinal qualities, and that it serves occasionally as an excellent breakfast for the camper who has strayed away from the commissary department, are among the many interesting facts set forth. An excellent collection of photographs of the various puff-balls at home are given.

This is but one of several collections of pictures in this number which are of rare interest.

The illustrations for "In the Land of the Leatherstocking Tales," give an extended glimpse of that beautiful country made famous by Fenimore Cooper's thrilling stories.

Both pathetic and humorous is the page of pen-and ink sketches by the late Michael Angelo Woolf. There is also a sympathetically told biography of this Noted Artist and Picturesque Man by Kate Jordan, who had the good fortune to number Mr. Woolf among her friends.

An important feature to women, which appears for the first time in this number of *Demorest's*, is the "Paris Fashion Supplement," a full-page costume designed in Paris especially for *Demorest's Magazine*.

Other fashion features worth considering in this number are the page of hats, beautifully illustrated, and the most recent edicts as to style in mourning. The latter article is by a well-known New York society woman.

Among the variety of good fiction in this number of *Demorest's* is a briskly told dialogue by Margaret Sutton Briscoe. Besides the amount of literary matter furnished, equal to that of any purely literary magazine, *Demorest's* furnishes this issue over half a hundred new Paris fashion designs.

Railroad Changes Hands.

A syndicate composed of S. D. Townsend, of Philadelphia, and other capitalists, has purchased the Williamsport and North Branch Railroad. The deal was announced to the stockholders at the annual meeting at Hughesville. The road forms the connecting link between the Lehigh Valley at Satterfield and Reading at Hall's Station. B. J. Welsh, the former superintendent, has been elected president.

Give the Children a Drink

called Grain-O. It is a delicious, appetizing, nourishing food drink to take the place of coffee. Sold by all grocers and liked by all who have used it because when properly prepared it tastes like the finest coffee but is free from all its injurious properties. Grain-O aids digestion and strengthens the nerves. It is not a stimulant but a health builder, and children, as well as adults, can drink it with great benefit. Costs about ¼ as much as coffee. 15 and 25c. 3 2 4td

The following are the legal holidays in Pennsylvania this year: 52 Saturday afternoons, which equal 26 whole days, New Year's Day, Election day in February, Lincoln's birthday, Washington's birthday, Good Friday, Decoration Day, Fourth of July, Labor Day, Election day in November, Thanksgiving day, Christmas. Add to these holidays 52 Sundays and we have a total of 90 days, leaving but 275 of the 365 days of the year which the law recognizes as legal business days.

In the new pamphlet of postal laws jut received, a clause in the chapter defining first class matter states specifically that all printed assessments with amounts handstamped or written thereon will be regarded as first class. Formerly "handstamped" was regarded as printed and passed as second class matter.

The Secret of Health

The health of the whole body depends upon the blood and nerves. Therefore the medicine that expels impurities from the blood and supplies the necessary materials for rapidly rebuilding wasted nerve tissues, reaches the root of many serious diseases. It is these virtues that have given

Dr. Williams' Pink Pills for Pale People

their wonderful power to conquer disease, and caused the miraculous cures that have startled the scientific world. Thousands of cases have demonstrated that this remedy is an unfailing specific for such diseases as locomotor ataxia, partial paralysis, St. Vitus' dance, sciatica, neuralgia, rheumatism, nervous headache, the after-effects of the grip, palpitation of the heart, pale and sallow complexions, all forms of weakness either in male or female.

Frank Tucker, is a prominent farmer, of Versailles, Indiana. His daughter, Lucy, is now fifteen years old; three years ago she began ailing. The rosy color in her cheeks gave way to a paleness, and she became rapidly thin. As she grew weaker she became the victim of nervous prostration.

Most of the time she was confined to the bed and was almost on the verge of going into St. Vitus' dance.

"Finally the doctor told us to give her Dr. Williams' Pink Pills for Pale People. Said he was treating a similar case with them and they were curing the patient. We began giving the pills at once, and the next day we could see a change for the better in her. The doctor told us to keep giving her the medicine. We gave her one pill after each meal until she was well. We began giving her the medicine last August, and she took the last dose in October, having used eight boxes. She is now entirely well and has not been sick a day since. We think the cure almost miraculous."

Supreme Court Sustains the Foot-Ease Trade-mark.

Justice Laughin, in Supreme Court, Buffalo, has ordered a permanent injunction, with costs, and a full accounting of sales, to issue against Paul B. Hudson, the manufactures of the foot powder called "Dr. Clark's Foot Powder," and also against a retail dealer in Brooklyn, restraining them from making or selling the Dr. Clark's Foot Powder, which is declared, in the decision of the Court, an imitation and infringement of "Foot-Ease," the powder to shake into your shoes for tired aching feet, now so largely advertised and sold all over the country. Allen S. Olmestead, of LeRoy, N. Y. is the owner of the trade-mark "Foot-Ease," and he is the first individual who ever advertised a foot powder extensively over the country. He will send a sample free to anyone who writes him for it. The decision in this case upholds his trade-mark and renders all parties liable who fraudently attempt to profit by the extensive "Foot-Ease advertising, in placing upon the market a spurious and similar appearing preparation, labeled and put up in envelopes and boxes like Foot-Ease. Similar suits will be brought against others who are now infringing on the Foot-Ease trade-mark and common law rights.

Attest:—
FREEZE QUICK, Sec'y.

Bloomsburg, Pa., April 25, 1899.

We, the undersigned, Auditors of the Town of Bloomsburg, do say that we met at the Council Room, for the purpose of performing our duties, and that we have examined the books of the Secretary and find them correct, and that the balance in the hands of the Treasurer is correct.

P. H. FREEZE,
W. KRICKBAUM,
G. E. WILBUR, } Auditors.

In signing this report I disapprove of Members of Council contracting with themselves, and shall feel it my duty hereafter to enter my protest to the payment of same.

W. KRICKBAUM, Auditor.

PROGRAMME.

Headquarters Col. Ent Post No. 250 Department of Pennsylvania G. A. R.

Comrades will meet at their hall at 10 a. m. and attend divine service at the Baptist church, Sunday preceeding Memorial Day. All soldiers and sailors invited.

MEMORIAL DAY.

Comrades will meet at their hall at 7 a. m. Start for Almedia Cemetery at 7:30 a. m. accompanied by the Bloomsburg Cornet Band, where they will be met by other societies, schools and citizens of Espy and Almedia. After appropriate service graves will be decorated. A detail of the P. O. S. of A. will decorate at the Vanderslice grave yard, Sons of Veterans at the new cemetery in the forenoon.

The procession will form on Market Square at 2:30 and march down Main street to West, out West to Third, up Third to Market, up Market to Main, up Main to Normal School, countermarch down Main to Centre, up Centre to cemetery.

At the soldier's circle the following service will be held:

Prayer by Rev. D. N. Kirkby.
G. A. R. Memorial service.
Recitation by Harry Evans.
President Lincoln's address at Gettysburg by John McGuffey of the Normal School.
Recitation by Miss Maud Belig.
Song by the Baptist Choir.
Music by Bloomsburg Cornet Band.
Details sent to decorate the graves of the fallen heroes.
Benediction by Rev. B C. Conner.

The memorial address will be delivered in the Tabernacle on Market street at 7:30 p. m. by comrade John T. Howe of Scranton, Pa. followed by H. A. M'Killip, Jas C. Brown. Samuel Pursel and Rev. J. D. Smith.

Recitations by Miss Mary A. Correll and Miss Esther Geddis.

All persons having flowers will confer a favor on the ladies' circle of the G. A. R. by bringing or sending them to the Post rooms Tuesday morning.

All persons living along the line of march are requested to decorate their buildings. Places of business will close at 1 o'clock p. m. and remain closed the balance of the day.

An invitation is extended to all citizens to join in this service and bring flowers.

Sale Adjourned.

The sale of furniture at Proctor Inn which was advertised to take place last Friday, was adjourned on account of the death of C. R. Buckalew, he being one of the committee of stockholders having the sale in charge, and also one of the largest owners. No date has yet been fixed for the sale.

Firemen at Church.

At the invitation of Rev. D. N. Kirkby the members of the fire department attended St. Paul's church in a body on Sunday evening. They gathered at the Town Hall and at 7:15 marched to the church headed by Chief Engineer W. H. Gilmore, one of the oldest and most faithful firemen our town has ever had. Friendship No. 1 had 30 men present, Rescue No. 2 had 40, Winona No. 3 had 22, and Goodwill 41, making a total of 133. The seats on the center aisle were reserved for them. The service was a pleasant one, the music was inspiriting, many of the firemen joining in singing the familiar hymns, and the sermon was practical, clear and convincing, and was spoken of by many who heard it as one of the Rector's ablest efforts. The text was from St. John, 11, 15. "Let us also go that we may die with him." It would not be a bad idea to make it an annual custom for the fire department to attend church in a body.

PAIN UNNECESSARY IN CHILDBIRTH.
Pain is no longer necessary in childbirth. Its causes, being understood, are easily overcome, the labor being made short, easy and free from danger, morning sickness, swelled limbs, and like evils readily cured. Pawnee Bill's Wild West.

Few people realize the proportions of a show of the "Wild West" type which will exhibit at Bloomsburg on Saturday June 3rd. In a conversation with Mr. Sam. H. Joseph, the ministerial looking advance man and a gentleman in every attribute, we elicit a few facts that will no doubt prove interesting to those who have given the subject little thought. In advance of Pawnee Bill's great aggregation are forty people who herald his coming. Next comes the final advertising car, which will reach here one week previous to the show and which will distribute tons of literature bearing on the merits of the exhibition. To demonstrate more fully its importance as a business factor it should be known that the show uses 4000 sheets of paper 3½ by 2½ feet exclusive of window work; —which if laid in a straight line would form a walk nearly three miles long by 2½ feet wide; to make paste for a season requires 350 barrels of flour; to feed the stock it is necessary to purchase 705,000 pounds of hay 12,000 bushels of oats and 50,000 pounds of straw. For the camp in which 300 men are daily fed are wanted 80000 pounds of beef, 60,000 pounds of bread and $10,000 worth of groceries—exclusive of vegetables, milk etc. These purchases are for the entire season of 1899 and are divided among the merchants of the towns in which th exhibitions are given, and thus an impetus is given to local trade. For this season the show has been wonderfully improved and augmented, and will give a grand street parade on the morning of its exhibition in Bloomsburg, which occurs on Saturday June 3.

UP THE CREEK.

We made recently a visit to Benton and the John G. McHenry distillery. This large distillery is of ample proportions—one of the largest in the State—and will soon reach completion. Its capacity will be four or five barrels per day. Mr. Steadman, the popular gauger, kindly showed us through the premises. It is a fine frame structure. Telephone communication through all parts of the country run out from the distillery. Mr. McHenry is well known throughout the State as producing fine whiskies, supplying the markets of New York, Baltimore, Philadelphia, and other large cities.

Benton proposes to have a large time on the "Fourth." The whole land is invited, or will be. Per consequence she will not have a very large time on Memorial Day.

Stillwater's Township Sunday School Convention went off successfully on last Saturday and at night. Large attendance, but one unfortunate speech was delivered at night that palliated card playing as inoffensive, and not injurious, when we all know that it is the gateway to drunkenness, debauchery and crime. The aged citizen should not have made it, especially in a Christian convention. He would have been better engaged in ploughing for corn. The speech was downed by other speakers and he was quenched into silence. The prominent speakers were Mr. Hiram Bower, of Berwick, Prof. Richardson, formerly of Berwick, and Rev. Grimes.

Orangeville will make a good show in her County Sunday School Convention this week.

Owing to bad weather E. J. Bowman has failed as yet to deliver an address to the Literary Society of Rhorsburg, It is expected to come off on the following Saturday. Subject, "The Destiny of Our Country."

Sunshine and warmth, or a corn crop failure.

Glad to note that Wm. Unangst is improving.

Mr. Geysinger improves, but slowly.

Mr. Lamon is out and around greatly improved.

Fishing, thus far, only tolerable. Too cold.

Forgot to mention a Macedonian Missionary spoke at the Stillwater Convention.

Mr. Hommel and wife, of Philadelphia, are visiting friends here.

We hear that Berwick will soon have a mammoth hotel. B.

Two Pretty Homes.

T. L. Gunton's new residence on Market street is now completed, the finishing touch being the stone pillars on the front porch. He has one of the handsomest homes in Bloomsburg, and it is said that the interior arrangements and conveniences are complete in every detail.

Adjoining Mr. Gunton is the property of W. J. Correll, on which a large handsome new dwelling has been erected. Those two properties stand on what was for many years known as the Weaver lot. What was so long an eye sore on Market street is now one of the prettiest localities on that pretty street.

ASK YOUR DOCTOR!

Ask your physician this question, "What is the one great remedy for consumption?" He will answer, "Cod-liver oil." Nine out of ten will answer the same way.

Yet when persons have consumption they loathe all fatty foods, yet fat is necessary for their recovery and they cannot take plain cod-liver oil. The plain oil disturbs the stomach and takes away the appetite. The disagreeable fishy odor and taste make it almost unendurable. What is to be done?

This question was answered when we first made

SCOTT'S EMULSION

of Cod-Liver Oil with Hypophosphites. Although that was nearly twenty-five years ago, yet it stands alone today the one great remedy for all affections of the throat and lungs.

The bad taste and odor have been taken away, the oil itself has been partly digested, and the most sensitive stomach objects to it rarely. Not one in ten can take and digest the plain oil. Nine out of ten can take SCOTT'S EMULSION and digest it. That's why it cures so many cases of early consumption. Even in advanced cases it brings comfort and greatly prolongs life.
